

THE RAILWAY REVIEW

TABLE OF CONTENTS FOR 1896.

VOLUME XXXVI.

CURRENT EVENTS AND COMMENTS.

- A**
- Acetylene—
Experiments with, 617
Explosibility of, 673
Use of for light and fuel, 547
Use of for motor cars, 645, 659
Use of in gas engines, 477
Acetylene gas—
Dangers in using, 85, 687
Explosion of, 309
Opinion as to poisonous properties, 71
Use of for lighting railway cars, 351
Accidents from carelessness, escape from, 463
Advantage of being a blacksmith, 113
Air, elasticity of for hoists, 589
Air brakes—
Automatic on passenger trains, 267
Continuous in Great Britain, 533
Examples of working in court, 603
Records of on New York Central, 29
Aluminum—
Corrosion of, 85
Use of in iron castings, 225
American manufacturers, competition with Japan, 253
American tools, quality of, 99
Apyrite, a kind of mineral, 197
Armor plate—
Face hardening of, 57
Latest test of Carnegie, 295
Axles—
Failures of in Great Britain, 29
Strains on railway, 85
- B**
- Balloon expedition, plans for one to north pole, 211
Belting, glue joints in, 71
Big chimneys, demolition of, 127
Bill of lading, stipulation on Southern Pacific, 113
Blast furnace gases, application of to engines, 169
Blast furnaces—
A Rockfeller, 701
To prevent damage by explosion, 1
Blue prints, method of flattening rolled, 43
Boat sails, use of paper for, 253
Boiler plates—
Process of rolling, 239
Results of tests of, 29
Boiler scale, method of removing, 491
Boiler stokers, the mechanical, 715
Boiler strength, method of figuring, 253
Boilers—
Automatic feeding device, 575
Effects of grease on water tube, 506
Injury to by grease, 491
Prevention of scale, 645
Scale in, 15
To prevent internal rusting of, 127
Boring square holes, method of, 197
Brazing, operation of, 85
Brick, manufacture of from sand, 659
Bridge plus, proper material for, 463
Bridge reverberations, overcoming in iron, 127
Bridges—
A long at Sidney, 239
An historic, 561
A peculiar approach, 659
Early iron, 645
Proposed cableway across the Ohio river, 169
Raising of under traffic, 659
Replaced replacement of, 659
Remarkable at Knoxville, 225
Same and concrete with virtual joints, 169
Traveling for Bizerta, 169
British mulls, delays in, 449
Business transaction, a very liberal, 659
- C**
- Canals—
Atlantic and Mediterranean, 365
Bottle & "Soo" compared, 29
Cost of Kiel, 141
Facts about new "Soo" lock, 449
Manchester ship, 545, 512
Opening of the new "Soo" lock, 407
Operations on Southern Oregon, 309
Results of opening the Baltic, 379
Traffic via the "Soo," 253, 309, 379, 435, 505, 561, 631, 687, 701
Traffic via the Suez, 99
- Carefulness pays, 533
Car ferry, working of the Flint & Pere Marquette, 281
Car trucks, increasing use of "bogie" in England, 561
Car wheels, cracking cast iron by heat, 393
Cattle shipments from gulf points, 197
Celluloid no longer the railroad man's friend, 99
Cement—
Action of water on, 421
A metallic, 113
For joining leather belting, 1
Heat resisting properties of Portland, 575
Use of slag for, 85
Changing of course of trade, 687
Charred wood, inflammability of, 323
Chemical vacuum, claims for an absolute, 323
Chilled rolls, turning of, 99
Chimney stack, method of straightening, 547
Chinese labor and wages, report of U. S. consul, 183
Chinese telegraph, difficulties of, 435
Choosing a vocation, importance of, 932
Coal—
Annual consumption for steam, 477
Burning of powdered, 141
Heating value of volatile matter in bituminous, 267
Importation from China, 519
Use of powdered for steam purposes, 29
Coal bunkers, construction of on Northern Pacific R. 29
Coal combustion, hot air admitted above grates, 631
Coal dust, use for fuel, 281
Coal tar, corrosive elements of, 435
Coal waste, estimate of in preparation, 365
Cog wheel railways, list of the world's, 113
Coke, magnitude of, 99
Coke and coal, evaporative powers of, 561
Colors—
Permanency of ancient, 57
Photographing of, 71
Commercial navies, statistics concerning, 645
Compressed air—
Effect of working in, 435
Use of in Union Pacific shops, 155
Concrete—
Adhesion of iron to, 449
Expansion and contraction in, 1
Condensing engines, use of for rolling mills, 393
Corporations, senseless opposition to, 71
Cranes—
The first hydraulic, 533
Working of electric, 575
Crystallized carbon, specimen of, 197
"Cum grano salis," 43
Cylinders, cutting of, 29
- D**
- Deepening of Hudson river, 197
Deep sea cables, rapid repair of, 491
Delineascope, a useful field instrument, 183
Designing by blind architect, 183
Dinas stones, testing of, 57
Ditching track, best method of, 183
Doing work right, good lesson to learn, 197
Do people ever forget? 239
Drag shoes and fixed brakes at sidings, 589
Drainage syphon under the Seine river, 211
Drawbridge, raising by means of wedges, 603
- E**
- Economic workshop output, installation of new machinery, 309
Edison's inventions, why he patents them, 519
Elastic limit, testing metals for, 477
Electric drills, rapid work with, 253
Electricity—
Application of to Erie canal, 281
Use of for power in brass mills, 351
Use of in casting metals, 113
Electric traction—
Use of on elevated roads, 575
Use of on Lake Street Elevated, 547
Use of on N. Y. N. H. & H., 533
Electric welding—
Late developments in, 1
Process of in England, 309
Electric magnets, use of as lifting agent in, 99
Emery, conversion of into corundum, 337
Emery wheels, use of in shops, 337
- Engine mileage, a large, 225
Engineering problem, peculiar in India, 435
Engineering progress, influence of technical press in, 337
Engineering tools, specimens found at Pompeii, 435
Engineering work, skill in estimating, 393
Engines, early instance of interchangeability, 617
Engine with five cranks, trial of, 295
Eye and ear examinations, New York Central engineers and firemen, 519
Eye bolts, method of forging, 85
- F**
- Feed pump accident, a peculiar, 337
Figures, misleading, on account of difference in, 393
Fire, curious cause of, 603
Fire maker, invention for locomotives, 155
Fire-proof paper, manufacture of, 197
Flax straw, use of for fuel, 253
Flexible cords, danger of electric, 687
Flexible tubes—
How Lasseur's are manufactured, 239
Method of manufacture, 239
Flint muskets, use of still in Africa, 617
Fluid friction, theory of, 491
Fly wheels—
Application of wire in, 15
Bursting of, 43, 71
Material for, 295, 659
Food for reflection, facts concerning nails, 281
Foreign railways—
Accidents on Indian, 155
A lofty viaduct, 575
American locomotives for, 15
Aroostic motor, 701
A Swiss mountain, 351
Bergen in Norway, 421
Commissioners' report for South Australia, 169
Construction in China, 169, 351
Construction in Jamaica, 351
Construction in Japan, 15, 29, 337
Construction in Siam, 561
Construction in Korea, 519
Construction of Siberian, 155, 617
Earnings on Indian, 351
Educating apprentices on Indian, 29
Engineering feat in Jamaica, 113
Enterprise in Russian, 29
Express trains on French, 29
Extension in Queensland, 43
Extension in San Salvador, 673
First in Alaska, 701
Improvements in English, 477
In high latitudes of Europe, 113
Jaffa-Jerusalem, 407
Light in France, 1
Nationalization of Swiss, 631
Operation in Jamaica, 407
Passenger traffic on European, 113
Proposed in Brussels, 477
Reasons for the Siberian, 701
Safety appliances in Australia, 533
Statistics in Great Britain, 575
Status of Trans-Siberian, 645
Steel v. wooden cars in Europe, 547
Sunday trains in Scotland, 421
Reason for the Siberian, 365
Reforms on, in Denmark, 57
Report on Japanese, 267
The Jungfrau, 225, 267
- Forests—
Total area in United States, 155
Total mileage of Japanese, 687
Foul air indicator apparatus for, 351
Freight cars, size of, 701
French roller ship, the first, 309
Fresh water, how to obtain at sea, 99
Fuel record, a long term, 183
Furnaces, high temperature, 673
- G**
- Gas and oil engines, growing use of, 715
Gas engines, use of in electrical work, 1
German exports, list of to Japan, 337
Glass—
Method of making holes in, 71
New non-conductive, 687
Solders for, 71
Test of wired, 519
- Use of for bearings, 43
Use of for bricks, 197
Government ownership of railways—
Example of, 715
Object lessons in, 687
Statistics regarding, 253
Glucinum, uses of, 239
- H**
- Hailstones, perforation of iron by, 589
Harbor works, extensive at Cape town, 575
Headblocks, reinforcing of, 141
Heavy rails and heavy rolling stock, contest between, 323
High speed engine, new powerful, 519
High speeds, fastest train in Germany, 561
Hydraulic power, introduction of into cities, 239
Hydraulic valves, grinding and seating of, 281
- I**
- Ice, what load it will bear, 1
Ice breakers, type of in the Netherlands, 57
Ice for section men, necessity for, 449
Illuminating gas produced from wood, 155
Interstate commerce ruling, Illinois Central Ry., 295
Important decision—
In case of Choctaw R. Co., 617
M. E. Bronson vs. Northern Pacific, 606
Institution of Engineers, the Japanese, 421
Iron—
Chemical analysis of, 309
Closing cracks in cast, 85
Corrosion of by oils, 141
Development of in Russia, 295
Effect of heat on, 1
Effect of vibration on cast, 253
Example of good, 365
Interest in rusty, 463
Introduction of ductile, 687
Japanese pig, 99
New method of hardening, 547
Piece 2,000 years old, 323
Process of making Low Moor, 631
Special selections of for malleable castings, 631
Varnish for, 57
Iron and steel—
Chemical analysis of, 155
Heat conducting power of, 239
Molecular changes in, 85
New process for, 589
Rustless coating for, 15
Unexplained changes in, 15
Iron casting, saved by compressed air, 43
Iron drilling machine attaching to ships' side by magnetism, 57
Iron manufacturers, suggestion for American, 169
Iron ore dust, utilization of, 183
Iron pipes, strengthening of, 99
Iron rails, exportation of English, 253
Iron sand, magnetic in New Zealand, 321
Iron tree, a remarkable discovery, 617
Iron work—
A new coloring for, 725
Cleaning cavities in, 225
Corrosion of, 519
- K**
- Krupp works, extension in Germany, 519
- L**
- Lake boats, some large, 149
Lake levels—
Changing of, 211
Report of General Craighill, 99
Lake line pools, effort to reorganize, 1
Largest tug afloat, the new Tamaqua, 85
Leather packing, difference in, 295
Lighthouses—
Great French, 673
Reflected light for, 309
Liquid fuel—
Use of for German warships, 99
Use on locomotives, 211, 449
Use of petroleum in the navy, 603
Locomotive fire boxes, inspection of, 497
Locomotive plant, an American in Russia, 477
Locomotives—
Decrease of building English, 71
Details of new Indian, 351

THE RAILWAY REVIEW.—Table of Contents.

<p>Patent regulations, particular in Mexico, 547</p> <p>Paying for brains, necessity for, in railroad shops, 15</p> <p>Pelton water wheel, influence of on electrical industries, 491</p> <p>Pennsylvania lines, uniformed attendants for, 235</p> <p>Perpetual motion railroad, Marquette Iron Range for ore, 99</p> <p>Petroleum—</p> <ul style="list-style-type: none"> Process of solidifying, 141 Use for fuel on war ships, 631 Use for making tight joints, 197 <p>Pile driver, a Chinese, 533</p> <p>Pile driving—</p> <ul style="list-style-type: none"> Experiments in stone, 393 Method in Germany, 673 <p>Pintch gas, illuminating powers of, 99</p> <p>Plain drawings, advantage of in mechanical work, 113</p> <p>Pneumatic tires, tests for efficiency, 505</p> <p>Power transmission—</p> <ul style="list-style-type: none"> By ropes, 211 Electrical on Pacific coast, 491 Use of ropes and belts for, 71 Priority of preferred stock, Baltimore & Ohio road, 379 <p>Professional pursuits, specialization in, 561</p> <p>Profit sharing, an instance of, 1</p> <p>Propellershaft, construction of at sea, 71</p>	<p>Rubber hose and tubing, manufacture of, 379</p> <p>Rubber tubing, action of coal gas on, 383</p>	<p>Technical schools, needs of, 281</p> <p>Telegraph poles, Swedish method for preserving, 211</p> <p>Telegraphy—</p> <ul style="list-style-type: none"> Possibilities of, 239 Unique feat in, 127 What we are coming to, 183 <p>Telephoning by water, method of, 267</p> <p>Telephones, appropriation for in Japan, 575</p> <p>Teredo proof, pile, tests of, 421</p> <p>Theories, revising old, 239</p> <p>Ticket scalping, end of a notable case, 661</p> <p>Tidal waves, recent in Japan, 407</p> <p>Tight joints, how to make with petroleum, 197</p> <p>Timbers, method of placing for drying, 477</p> <p>Titles, the abuse of, 359</p> <p>Tool steel, to remove a good cut from, 197</p> <p>Tornados, responsibility for repairs, 435</p> <p>Track ballast, some facts concerning, 267</p> <p>Track tools, care of, 393</p> <p>Trading in futures, instance of in 1836, 155</p> <p>Trade in Japan, development of, 365</p> <p>Trades unions, the tyranny of, 155</p> <p>"Train caller" nuisance, 71</p> <p>Train robber, an ingenious, 43</p> <p>Train service, disappearance of porters, 505</p> <p>Train speeds, European express, 127</p> <p>Trans-oceanic towage, by Standard Oil Co., 197</p> <p>Transportation of treasure in China, 99</p>
<p>Prevented destruction of in burning shops, 183</p> <p>Speeding up of, 323</p> <p>Magnesium lights, new departure in, 365</p> <p>Making land, redemption of the Zuider Zee, 603</p> <p>Manhattan Elevated Railway, electricity on, 545</p> <p>Manual training school, a new at Muskegon, 211</p> <p>Matter of detail, importance in manufacturing, 225</p> <p>Measurements, refinements of, 29</p> <p>Mechanical drawings, working to, 435</p> <p>Mechanic's tools, quality of American, 99</p> <p>Metric conversion table, a convenient, 715</p> <p>Mica, mining of, 99</p> <p>Milling cutters, speed of, 491</p> <p>Milling machines, sensitiveness of, 477</p> <p>Mining shaft, deepest in the world, 225</p> <p>Miti-process for wrought iron, 225</p> <p>Modernizing, influence of, 421</p> <p>Molding sand, a new, 211</p> <p>Mortar plates, strength of, 407</p> <p>Mortars, effect of freezing on, 113</p> <p>Motor cars, tests on heavy, 191</p> <p>Motor fuel, calcic carbide as, 85</p> <p>Mountain mahogany, product of Nevada, 15</p> <p>Moving buildings, largest on record, 673</p> <p>Moving machinery, effect of synchronous motion in, 351</p> <p>Moving mountain, a, 211</p>	<p>Quicksand, testing of, 453</p>	<p>Trees—</p> <ul style="list-style-type: none"> Examples of large, 615 The smallest species, 15 <p>Tunnels—</p> <ul style="list-style-type: none"> Care of workmen in, 379 Comparative cost of, 43 Signaling in railway, 15 Under Pike's Peak, 43 <p>Turbines—</p> <ul style="list-style-type: none"> Shaft of the Laval steam, 57 Some early, 43 Twist drills, introduction of in China, 309
<p>Nails, wire and cut, 435</p> <p>Narrow escape from accident, 183</p> <p>Natural gas, decline of the supply, 603</p> <p>Natural gas line, a long, 1</p> <p>Natural scenery, growing regard for, 57</p> <p>Navigation on the Amoor, some experiences in, 421</p> <p>Neatness pays, comparison of two shops, 659</p> <p>New Pittsburgh railway, 267</p> <p>Not so bad as commonly reported, 281</p>	<p>Rafting lumber, another attempt on the Pacific, 127</p> <p>Rail joints, cast welding for, 43</p> <p>Railway ballast, covering sand with broken stone, 253</p> <p>Railway construction, lines in the south, 127</p> <p>Railway corporations—</p> <ul style="list-style-type: none"> Largest in the world, 561 What one did, 463 <p>Railway economics, need of technical education, 673</p> <p>Railway elevators—</p> <ul style="list-style-type: none"> New Illinois Central at New Orleans, 561 Location of our right of way, 715 <p>Railway employees—</p> <ul style="list-style-type: none"> Mexicans for, 225 Reading room, opening of new, at Sayre, 99 <p>Railway indebtedness, Pacific coast view of trans-continental, 715</p> <p>Railway laws, best in the world in Texas, 575</p> <p>Railway material firms, prospective business for, 407</p> <p>Railway museum, an English national, 617</p> <p>Railway paint shops, apprentices in, 589</p> <p>Railway rails—</p> <ul style="list-style-type: none"> Demand for English, 421 English manufacture abroad, 295 Use of old for return feeders, 379 <p>Railway management, Grand Trunk, 515</p> <p>Railway scrap, uses for, 155</p> <p>Railway shops, use of compressed air in, 155</p> <p>Railway stations, ideal terminal, 1</p> <p>Railway supplies, legal decision concerning, 701</p> <p>Railway taxes, growing tendency to levy, 547</p> <p>Railway terminals, the Washington, 701</p> <p>Railway ties—</p> <ul style="list-style-type: none"> Cost of in Texas, 183 Iron v. wood, 547 Which side of oak to put down, 449 <p>Railway tracks—</p> <ul style="list-style-type: none"> Needed September work, 505 Straightening B. & O. 715 <p>Red lead, fire caused by spontaneous heating of, 57</p> <p>Redwood, exporting from California, 225</p> <p>Reliable estimates, difference in specifications, 127</p> <p>Riveting and rivets, requirements for, 399</p> <p>Rivets, resistance of, 1</p> <p>Road crossings, good method for foremen, 71</p> <p>Rockefeller boats, large carrying capacity of, 421</p> <p>Rockefeller mining suits, decision in, 645</p> <p>Röntgen rays—</p> <ul style="list-style-type: none"> Application to metals, 85 Picture by, as evidence, 197 <p>Roller ship, the French, 309</p> <p>Rotary hydraulic engines, the study of, 379</p> <p>Rotary motion, experiment with, 211</p> <p>Rotary goods, cracking of, 491</p>	<p>Underbidding shipments, an instance of, 281</p> <p>Uniform symbols, use of in engineering formulae, 57</p> <p>Unique railroad, a perpetual motion, 99</p> <p>United States senate, sobriety in, 127</p> <p>Unusual mishap, the argonaut on Lake Michigan, 267</p> <p>Useless controversies, example of, 659</p> <p>Utilitarian age, companies claiming rights from Niagara, 127</p>
<p>Observation, habit of, should be cultivated, 631</p> <p>Ocean cables, English-Pacific scheme, 687</p> <p>Ocean depths, tests of, 71</p> <p>Ocean divers, facts regarding, 603</p> <p>Ocean records—</p> <ul style="list-style-type: none"> Another breaker, 323 Quick time from England, 449 <p>Oiling long drills, method of, 141</p> <p>Oil on the waters, spreading of, 29</p> <p>Old ships, treasures found in, 463</p>	<p>Steel—</p> <ul style="list-style-type: none"> Bottle test of Mannesmann, 673 Charcoal for annealing, 379 Chemical tests of, 57 Crystallization in mild, 197 Determining carbon in, 211 Effect of cheap on iron industry, 435 Electrical treatment of, 365 Enormous product in, 127 Fractures in, 337 Hydraulic press vs. steam hammer forging, 399 Manufacture of in Sweden, 505 Method of hardening for tools, 169 New process of manufacture, 617 Open hearth process in making, 575 Oxidizing and blacking, 393 Process of hardening, 561 Proper selection for different service, 463 Tests of cast, 15, 43 Use of for ceilings, 43 <p>Steel canal and lake boats, fleet of, 295</p> <p>Steel castings, remarkable stem post, 673</p> <p>Steel chimney, tallest in the country, 673</p> <p>Steel pipes, preference to copper in vessels, 141</p> <p>Steel rails, want of homogeneity in, 239</p> <p>Steel shafts, cause of breakage in, 337</p> <p>Steel wool, process of manufacture, 197</p> <p>Still need for an ark, 533</p> <p>Suggestion for Mr. Bryan, 603</p> <p>Sunlight, value of, 533</p> <p>Surveying instrument, the use of the camera as, 463</p>	<p>Valves, safety vs. pop, 43</p>
<p>Paint—</p> <ul style="list-style-type: none"> Experiments in, for metals, 365 For ironwork, 183 Good metal, 71 Lasting, for glass, 211 New marine, 85 Teredo proof, for piles, 547 <p>Patent office statistics, report of commissioner, 281</p>	<p>General Index.</p>	<p>Warships, communication on board, 421</p> <p>Water gage glasses, protection of, 99</p> <p>Water pipes, process for cleaning, 323</p> <p>Water power—</p> <ul style="list-style-type: none"> Rocky Mountain streams, 113 Utilization of, 141 <p>Water pressure, effect of at 200 feet, 379</p> <p>Waterproofing brick and sandstone, use of oil for, 155</p> <p>Water tube boilers, manufacture of the Yarrow, 211</p> <p>Water works, gas motors for, 323</p> <p>Weighing machines, automatic for coal, 491</p> <p>Welding by pressure, experiments in, 197</p> <p>Welding different metals, process for, 323</p> <p>What the tank said, relation of tank and beam in vessels, 113</p> <p>Wheat, statistics concerning, 645</p> <p>Wheel tires, manufacture of, 701</p> <p>Wilhelm and Jonathan, friendly relations with Germany, 589</p> <p>Wire, cost of, 393</p> <p>Wire glass, method of manufacture, 281</p> <p>Wood preservation—</p> <ul style="list-style-type: none"> Process of, 505 Process in Switzerland, 15 <p>Woods, effect of high pressures on, 29</p> <p>Workshops—</p> <ul style="list-style-type: none"> Economic output for, 309 Railway in Japan, 393 Worm gearing, efficiency in, 15

GENERAL INDEX.

<p>Act to regulate commerce, amendments to, 25</p> <p>Aeworth, W. M., English railway clearing house system, 365</p> <p>Adams vortex exhaust nozzle, 52</p> <p>Advertising—</p> <ul style="list-style-type: none"> Common sense about, 93 New departure in railroad, 133 <p>Air brake freight trains, difficulties with, 33</p> <p>Air brake instruction car, M. C. Ry. 105</p> <p>Air brake litigation, Westinghouse vs. Boyden, 68, 76</p> <p>Air brake recorder, an automatic, 241</p> <p>Air brake rigging—</p> <ul style="list-style-type: none"> Cost of, 412, 445 Cost of, communication concerning, 466 <p>Air brakes—</p> <ul style="list-style-type: none"> Care of, 114 Definition of in a nutshell, 525 Equipment of for freight trains, 48 Instruction plant for, C. V. Ry. 245 Metropolitan Elevated Ry. of Chicago, 88 Plain automatic for elevated roads, 104 Power of for passenger trains, 452 Qualifications of superintendent of, 212 Stop cocks for, 384 Testing and inspection plants for, 230 Use of continuous in India, 696 <p>Air compressors—</p> <ul style="list-style-type: none"> Belted, 493 Ingersoll-Sargeant belt driven, 184 Metropolitan Elevated Ry. of Chicago, 88 Rand in A. T. & S. F. shops, 45 The Star, 379 Use of on A. T. & S. F. Ry. 234 Use of on C. & N. W. THE RAILWAY REVIEW.—Table of Contents.

New high speed velocipede, 114
New inspection car, 423
Katto, Walter, organization of engineers department, 317
Kennedy car door fastening, 3
Kerr, James, manufacture of wrought iron, 539
Kinzer & Jones, brake shoe at conventions, 355
Knapp, Martin A., railroad pooling, 468, 422
Knife grinder, an automatic, 276

L
Lag screws, holding power of, 23
Lake Erie & Western Ry., replacing wooden bridges with permanent structures, 541
Lake levels, preservation of, 67
Lake Shore & Eastern Ry., new Page dump car, 472
Lake front improvements, viaducts over I. C. R. R., 497
Lake front park, I. C. Ry. improvements, 356
Lake Shore & Michigan Southern Ry.—
Annual report, 258
Blanks for reporting improper car repairs, 639
Coal cars, 34 ft. drop bottom, 128
Peculiar washout, 507
Strong passenger car, 571
Waitt car door, 662, 690
Wide vestibules for passenger cars, 170
Lake Street Elevated Ry.—
Electric motor car trucks, 90
Motor truck for, 132
Third rail supports of, 259
Lake Superior & Ishpeming, heavy compound locomotives, 495
Large stern frame, transportation of, 58
Law firm, a well equipped, 38
Louisville & Nashville Ry., new ten wheel locomotive, 4
Leach, Henry L., improved pneumatic locomotive sander, 341
Lehigh Valley Coal Co., unique coal storage plant, 564
Lehigh Valley Ry.—
New departure in advertising, 133
Wide fire-box locomotive for, 61
Lidgerwood Mfg. Co.—
Rapid unloader, 315
Self filling scraper, 63
Tem. ore transporter, 383
Lindsay, N. F., paints for railways, 675
Link-Belt Mach. Co., endless freight conveyor, 366
Linstrom's truck spring, hanger and journal box, 245
Liquid fuel—
Holken system of burning, 231
Methods of burning it, 439
Locking pin for Janney coupler, 318
Locomotive boilers—
Effects of high rates of combustion upon efficiency, 522
Grate areas and heating surfaces, 2, 94
Water tube, 580
Locomotive boilers and tubes, Ed. Sauvage, 487
Locomotive construction, use of cast steel in, 719
Locomotive counterbalancing, G. R. Henderson on, 524
Locomotive crosshead, new design of cast steel, 691
Locomotive cylinders, lubrication of, 717
Locomotive explosion, a curious in Peru, 394
Locomotive fire-boxes, the Ten Brinck, 618
Locomotive fuel, oil on Los Angeles Terminal Ry., 37
Locomotive fuel record, C. M. & St. P. Ry., 44
Locomotive grates, M. M. report on kind for anthracite coal, 131
Locomotive injector the Ohio, 24
Locomotive lagging, magnesia sectional, 338
Locomotive lubricators, automatic, 627
Locomotive mileage—
Good on N. Y. C. & St. L. Ry., 128
Good on Pennsylvania R. R., 174
Locomotive rating and fuel, discussion in Western Ry. Club, 384
Tracy Lyon on, 295
Locomotive record, good on N. Y. C. Ry., 150
Locomotive sander, improved pneumatic, 341
Locomotive service—
Discussion of paper by Western Ry. Club, 115
J. H. McConnell at Western Ry. Club, 31
Relation and scope of, J. H. McConnell, 51
Locomotive stack, cast iron, C. & N. W. Ry., 103
Locomotive tanks, suction pipe for, 595
Locomotive tenders, derailment on curves, 499
Locomotive tires, flangeless ty. E. E. R. Trainman, 411
Locomotive valves, application of piston, 636
Locomotive water gages, 524
Locomotives—
Air on New Orleans & Western, 244
An inspection, St. L. & A. Ry., 189
Baldwin, Westinghouse electric, 133
Cape government railway, 411
Compound switching, 229
Culm burning, 481
Cylinder and steam chest insulation, 479
Eight-wheel, C. R. I. & P., 622
Eight-wheel express, N. E. Ry. of England, 716
Eight-wheel passenger, C. R. I. & P. Ry., 300
Eight-wheel passenger, C. R. R. R., 677
Fast passenger, N. Y. N. H. & H., 413
Four interesting Baldwin, 605
Freight for Russia, 115
Future of the express, 595
Hauling and tractive power of, 563
Hauling capacity of, by H. H. Vaughan, 46, 172
Heavy compound L. S. & J. Ry., 495
Heavy consolidation, B. & O., 620
Increase of heating surface in, 226
Madison hill, P. C. C. & St. L., 663
Mogul freight, Gt. N., 595
Mogul freight, N. Y. N. H. & H., 550
Mogul, Maine Central Ry., 453
New consolidation, B. & O. 576
New fast passenger, C. R. R. of N. J., 342
New for Japan, 689
New passenger, C. M. & St. P. Ry., 397
New ten-wheel for L. & N. Ry., 4
Notes on performance of the "Schenectady", 380
Raising center of gravity in, 170
Relations between boilers, cylinders and weight on driving wheels, 324, 306
Six-wheel switching, 339
Ten-wheel, M. C. R. R., 311
Ten-wheel passenger, B. C. R. & N., 707
Ten-wheel passenger, Erie Ry., 523
Ten-wheel passenger for Russia, 101
Tests of B. & O. electric, 144, 164
Truck spring hanger and journal box, 245
Two new for C. R. I. & P. Ry., 537
Wide fire-box for L. V. Ry., 61
Lodge & Davis Machine Tool Co., self-emptying oil separator, 31
Long car dumping machine, 368
Lubrication, chemistry of lubricants, 329
Lugwig, Durr & Co., powerful petroleum light, 549
Lumber, standard methods for loading, 150
Lumber equalizer, the railroad a controlling factor, 625
Lyon, Tracy, locomotive rating and fuel, 295

M
Madison Car Works—
Combination stock and coal car, 7
Correction notice for, 23
Heavy freight car truck, 151
Williams Malleable brake beam, 328
Madras harbor, north pier head, 440
Mail crane and catcher, the new Hauss, 427
Maine Central Ry., new mogul freight locomotives, 453

Management of men, A. E. Manchester at Western Ry. Club, 479
Manchester ship canal indebtedness, 241
Marburg, Prof. Edgar, cantilever bridges, 233
Marine engine construction, testing steel for, 450
Master Blacksmiths Association, annual convention of, 515
Master Car and Locomotive Painters' Assn., notice of annual convention, 445
Master Car Builders' Assn.—
Announcement of opening address, 275
Annual convention, 339, 353
Axle, journal box bearing and wedge for cars, 388
Circular on coupler repairs, 469
Circular on drawings of standards, 567
Committee on subjects for convention, 255
Corrosion of rails and air brake pipes, 367
Criticism of revised interchange rules, 145
Discussion on couplers and buffer blocks, 357
Freight car doors and attachments, 21
List of committees for 1897, 466
Notice of 1896 convention, 44
Notice of 1897 convention, 673
Passenger car ends and platforms, 370
Practical experience with metric system, 357
Progress of American car construction, 341
Reports of committees at convention, 345
Report of committee on mounting wheels, 355
Revision of interchange rules, 30, 569
Revision of standards, 171
Rules for loading long material, 478, 492
Stenciling of cars, 371
Master Mechanics' Assn.—
Annual convention of, 351
Apprentice boy, 394
Decimal gage for metals, 695
Laboratory tests of brake shoes, 367
Locomotive boiler jackets, 723
Notes on convention, 357
Notice of 1896 convention, 44
Notice of 1897 convention, 673
Questions sent to members, 230
Report of committee on boiler tubes, 381
Reports of committees, 359, 373
Report on kind of grate for anthracite coal, 131
Subjects for 1897 convention, 508
McConnell, J. H.—
Locomotive service at Western Ry. Club, 31
Relations and scope of locomotive service, 51
Uses and advantages of compressed air, 705
McConway & Torley Co., new locking pin for Janney coupler, 318
McMullen Woven Wire Fence Co., new fence of, 626
Mechanics, object lesson for young, 452
Merriman, Prof. Mansfield, past and present tendencies in engineering education, 555
Metal gages, the decimal, 695
Metal working, the Ehrhardt process, 891
Metric system, practical experience with, 357
Metropolitan Elevated Ry.—
Air brakes on, 88
Busy day for, 581
Metropolitan Traction Co., air motor cars in New York, 6-6
Mica Boiler Covering Co., method of manufacture, 626
Michigan Central Ry.—
Air brake instruction car, 105
Fast run of "Vanderbilt special" 311
Pillar crane for yard, 319
Michigan Engineering Society, notice for annual convention, 11
Michigan Lubricator Co., new kerosene boiler feeder, 474
Miles, H. D., an improved compensator base, 254
Milling machine, double column, by Niles Tool Works, 235
Minneapolis & St. Louis Ry., bridge over Minnesota river, 451
Missouri, Kansas & Texas Ry.—
Coal car, 60,000 lbs. capacity, 159
Pressed steel truck on, 201
Modern iron working appliances—
"Bulldozers," 717
Cupolas and ladles, 620
Molding machines and blowers, 648
Power hammers, 679, 693, 704
Power hammers and hammer cranes, 664
Wheel casting and light cranes, 631
Molding machine, extra heavy, J. A. Fay & Co., 636
Molmen, L. E., flangeless driving wheels, 423
Moore Car Door Co., new bracket of, 104
Mountain railways, profiles of principal, 212
Multiple drill, for girder work, 262

N
National Ass'n of manufacturers, notice of annual convention, 39
National Electric Car Lighting Co., installation on A. T. & S. F. Ry., 724
National Malleable Castings Co., manufacture of malleable iron steam pipes, 403
National Railroad Blacksmiths' Assn., notice of annual meeting, 397
National Switch & Signal Co.—
Improvements in interlocking machines, 271
Travis derailing switch, 450
Necessary railroad legislation, 247
New England R. R. Club, packing for piston rods and valve stems, 275
New Orleans & Western Ry., air locomotives, 244
New York Central Ry.—
Depew shops, 332
Good locomotive record, 150
Syracuse station, 228
Wear of tires on passenger engines, 146
New York, New Haven & Hartford Ry.—
Extension of electric traction, 402
Mogul freight locomotives, 550
New fast passenger locomotive, 413
New passenger station at Providence, 482
Track elevation, 187, 199, 507
New York Railroad Club—
Balance slide valves, 343
Car heating by steam, 578, 646
Cause for train detentions, 66
Discussion on locomotive tires without flanges, 411
Discussion on rates of combustion and efficiency in locomotive boilers, 644
Economy of compressed air, 669
Flangeless driving wheels, 423
Steel underframes for freight cars, 231
New York terminals, effect upon trade, 702
Niagara power house, an addition to, 579
Nickel steel, note concerning, 103
Night signals, another scheme of lights, 647
Niles Tool Works—
Chord boring machine, 198
Double column milling machine, 235
Horizontal boring and drilling machine, 612
Multiple drill for girder work, 262
New design for boring and turning machine, 579
Swinging drill for girder work, 174
Turret lathe and screw machine, 287
Ninety and nine, J. N. Barr, 102
Northeastern Ry. of England, 1,000 mile tickets of, 477
Northern Pacific Ry.—
Body bolster for 70,000 lb. car, 255
Flat cars, 70,000 lbs., 566
Northwest Railway Club—
Acetylene for car lighting, 417
Automatic air brake recorder, 241
Automatic locomotive lubricators, 627

Duties of traveling engineers, 410
Quality of coal and cost of operation, 637
Three forms of draft rigging, 326
Uniformity in storehouse stock, 254

O
Ohio locomotive injector, 24
Oil fuel for locomotives, 37
Oil purifier, Q. & C. perfection, 136
Oil separator, self-emptying, 31

Riveting machine—
A pneumatic, 706
Semi-portable, 724
Roadmasters' Ass'n of America—
Annual convention, 506, 528
Notice for annual convention, 277, 403, 469
Subjects for annual convention, 601
Rod mill for scrap material, C. M. & St. P. Ry., 34
Rogers Locomotive Works—
New ten-wheel locomotive for L. & N. Ry., 4
Six-wheel switching locomotive, 359
Rope driving, notes on introduction and development, 543
Round house floor, a cheap and durable, 35
Rudd, A. H., an old and a new interlocking plant, 565
Rules for loading long material on cars, 478, 492
Rustless coatings for iron and steel, 716

S
Sandberg, C. P., large bearing surfaces for rail joints, 690
Sand drier, the Cummer portable, 329
Sanderson, R. P. C.—
Cast iron vs. steel tired wheels, 564
Locomotive fire kindlers, 311
Sand tower, use of on C. & N. W. Ry., 466
Saratoga conventions, hotel accommodations for, 189
Sargent & Co.—
New brake shoe, 234
Test of steel castings of, 678
Sauvage, Ed., locomotive boilers and tubes, 487
Savannah, Florida & Western, a new hospital car, 525
Schoen Pressed Steel Co.—
Steel car truck, 131
Truck for M. K. & T. cars, 201
Schenectady Locomotive works—
Compound switching engine, 229
Mogul freight locomotives, M. C. R. R., 453
Mogul freight locomotives, N. Y. N. H. & H., 550
New fast passenger locomotive, N. Y. N. H. & H., 413
Sea waves in Japan, 464
Self filling scraper, at Chicago drainage canal, 63
Shears, steam or compressed air, 501
Sheffield Car Co.—
Gasoline velocipede inspection car, 271
New Page dump car, 472
Shields, Curtis W., economy in compressed air, 696
Ships—
Electroplating the bottom of, 189
Strains of, 119
Temperature in stokeholds of, 170
Shop appliances—
Brown & Sharpe Mfg. Co.'s list, 3
Double cylinder floor machine, 635
Double head miller, 213
Extra heavy molding machine, 426

Horizontal boring and drilling machine, 612
Improved pneumatic hammer, 697
Multiple spindle drill press, 640
New air motor for operating, 495
New boring and turning machine, 579
New power metal sawing machine, 710
Taper lathe and screw machine, 287
Vertical low chisel and mortising machine, 586

Shop notes—
A. T. & S. F. Ry., 219
Car department, I. C. Ry., 430
C. N. & W. Ry., 52
C. M. & St. P. Ry., 6
Great Northern Ry., 93
Locomotive department, I. C. R. R., 443
Union Pacific Ry., 514

Signaling and interlocking—
An old and new interlocking plant, 56, 665
Are switch and lock movements safe, 667
Automatic block for single track, 538
Colors for night signals, 147, 458
Communication on English caution signal, 108
Compensator signal wires, 514
Connections under street crossings, 458
Distant signals and care of apparatus, 158
Electric locking, ancient and modern, 268
Electric locking at Ry. Signaling Club, 416
Electric train staff, 534
Electro-pneumatic plant at St. Louis, 214
English switch and lock movement, 632
Improvements in National interlocking machine, 271
Improvements in switch and lock movements, 650
Insulated joint for interlocking pipes, 675
Interlocked crossovers, Union Loop Elevated, 668
Interlocking statute in Ohio, 397
Lights for night signals, 184
New plant in Chicago, 68
Protection for drawbridges and tunnels, 410
Rocker shaft lead out, 77
Rules for, 188
Scheme of lights for night signals, 647
Standards of Pennsylvania R.R., 240
System of American Signal Co., 282
Union Loop Elevated, 467

Skylights, translucent fabric, 528
Slayton, C. E., duties of traveling engineers, 410
Slide valves, tests of by M. M. committee, 178
Snow plows, hydraulic attachment for raising rotary, 651
Society for Promotion of Engineering Education—
Extracts of papers at meeting, 481
Program of annual meeting, 449
Solution of a mystery, 415
Sound money, a railroader's view, 567
Southern & Northwestern Railway Club—
Cheap and durable round house floor, 35
Locomotive fire kindlers, 311
Notice of November meeting, 555
Sanderson on cast iron vs. steel tired wheels, 564
Southern & Western Grain Trade Congress, notice of meeting, 201
Southern pine, mechanical and physical properties of, 272
Spicer, V., electric locking, ancient and modern, 268
St. Charles Car Co.—
Atlanta & West Point dining car, 158
Danahy dump car, 156
St. Lawrence & Adirondack, inspection locomotive, 189
St. Louis Steam Engine Co., star air compressors, 370
State control of railways, obligation of state protection, 101
Station agent, E. P. Ripley on, 338
Station platforms, economies in, 20
Stickney, A. B.—
Campaign issues, 611
Control of rates limited to states, 290
Stickney track indicator, C. G. W. Ry., 74
Steam, practical use of high pressure, 311
Steamboats, new side wheeler City of Buffalo, 75

Steam pipes—
Covering for, 160
Use of cast iron for, 661
Use of malleable iron for, 403
Steam trap, the Gelpel, 725

Steel—
Flaws shown by microscope, 129
Hardening extra soft, 34
Origin of Bessemer process, 691, 702
Specifications for boilers and fire boxes, 682
Standard specifications for structural, 570
Testing for marine engine construction, 450
Steel arches, tests of corrugated, 276
Steel castings, tests of Sargent Co.'s, 678
Steel rails—
Breakage of, 569
Difficulty of introducing, 44
Steel shafts, hollow forged, 647
Stenciling of cars, report of M. C. B. committee on, 371

Stokers, smoke prevention with mechanical, 396
Stop cocks, new for air brakes, 384
Storage battery, present position of, 7
Storehouse stock, uniformity in, 254
Story, Moorfield, railway receiverships and reorganizations, 467
Street, Clement F., oriental railways, 72, 86
Strong, George S., future of power development in Cassier, 473
Suction pipes, new for locomotive tanks, 595
Sullivan, Jerry—
Height of freight cars, 117
Rail cut ties, 485
Spring track work, 155
Summer excursion rate meeting, 30
Summer outings, literature for, 356
Superintendents of Bridges and Buildings, notice of annual convention, 341
Surfacing and jointing machine, large dimension, 444
Surfacing and sizing machine, new double, 416
Sutherland, D. S., transportation from operating standpoint, 216
Swain, George F., historical development of bridges, 668
Switch indicators, Ry. Signaling Club, 74
Switches, a simple derailing, 450
Switch stands—
Automatic ground throw, 20
Elliott's electrically locked, 227

Technical Club—
Headquarters of, 172
Meeting of subscribers, 105
Proposed for Chicago, 67
Technical education, practical view of, 660
Technical schools, pioneer in the United States, 60
Telegrams, transmitting typewritten, 147
Ten brick fire-box, 618
Tender step, form and location of, C. R. I. & P. Ry., 411
Tensioning machine, a heavy, 402
Testing machine, Richle foundry, 353
Thomas Carlin's Sons, a new power shear, 108
Thorp, Platt & Co., Gelpel steam trap, 724
Through Yellowstone Park on wheel, circular of N. P. Ry., 355

Timber—
Communication concerning tests, 179
Notes on overloaded white pine, 174
Properties of southern pine, 272
Some properties of, 121
Tests of Washington fir and eastern oak, 133
Unit stresses for, 547
Timber preservation, Woodline for, 118, 248
Timber trestles, economical design of, 157
Time card, an ancient, 694
Tool rooms in machine shops, report of committee to Central Ry. Club, 396
Track awards, system on C. H. V. & T., 693
Track depression, B. & A. at Newton, 671
Track elevation—
C. & N. W. Ry. in Chicago, 17
N. Y. N. H. & H. in Boston, 187, 199, 507
Track indicator, the stickney, 74
Track sander, Dean's pneumatic, 441
Tractive and hauling power, diagram of, 609
Train detentions, causes for, 66

Train resistance, formula for, 240
Train staff, the electric, 534
Translucent Fabric Co., material for sky lights, 528
Transportation of live stock in Uruguay, 723
Tratman, E. E., Russell, locomotive tires without flanges, 411
Traveling Engineers' Assn.—
Annual convention of, 523
Annual meeting of, 569
Duties and what they may accomplish, 410
Questions on locomotive fuel and water supply, 179
Tribulations of a G. P. A., 577
Truck frame, built of pressed steel, 96
Tunnels—
Philadelphia & Reading Ry., 284
Triangulation, preparatory to alignment, 201
Turner, E. K., arrangement of terminal stations, 593

Turntables—
Application of pneumatic power, 436
Standard 60 foot, 381
Twist drill, a new, with oil tubes, 430

U
Underframes, steel for freight cars, by D. L. Barnes, 231
Uniform classification, report of railway commissioners, 305
Union Loop Elevated Ry.—
Interlocked crossovers, 668
Signaling and interlocking on, 467
Stations on, 425
Union Pacific Ry.—
Apprentice system, 493
Shop notes, 514
Union Switch & Signal Co.—
Automatic block signal for single track, 538
Installation of interlocking plant, 68
Rocker shaft leadout, 77
United States and English railways, comparison of profits, 173
Unit stresses for timber, 547
Umo R., Nippon Ry. of Japan, 437
Universal Construction Co.—
Latest in Pennock steel cars, 395
Pennock steel hopper car, 325
Test of flat cars, 570
Two strong steel cars, 298
U. S. Wind Engine & Pump Co., water tank C. & N. W. Ry., 185

V
Valve motion—
Haley-Haberkorn, 171
Webb's single eccentric, 20
Valve setting, air motor in locomotive, 216
Valves—
Balance slide, 343
Defective lubrication of locomotive, 219
Low pressure pop, 661
New pop safety, 439
Piston on locomotives, 636
Rushon's throttle opening, 351
Vaughan, H. H., hauling capacity of locomotives, 46, 172
Ventilators, the Pancoast, 47, 325

W
W. & S. Hydraulic Machinery Works, new hydraulic jacks, 248
Wabash Ry.—
New mail cars, 579
Special car for carrying cables, 60
Washout, a peculiar on L. S. & M. S., 567
Water gages, method of testing, 524
Water station, C. & N. W. Ry., 185
Water works plant, gasoline engine for, 695
Water works system, Pohle air lift pump for, 119
Water tube boiler, test of, 637
Watson's balanced gage glass, 697
Webb's single eccentric valve motion, 20
Wells, C. W., view of interstate commerce law, 696
Western Foundrymen's Association—
Apprenticeship indentures, 621
Compressed air in foundry practice, 542
Western manufacturers and interstate commerce law, 278

Western Railway Club—
Air tight dummy couplings, 32
Annual meeting of, 527
Another glimpse of the exhaust jet, 314
Apprentice boy, 619
April meeting of, 233
Care of air brakes, 114
Development in locomotive rating, 760
Difficulties with air braked freight trains, 33
Discussion of locomotive rating and fuel, 384
Discussion of paper on locomotive service, 115
Election of officers, 292
February meeting of, 64
H. D. Judson on railroad ethics, 481
January meeting of, 46
Locomotive rating and fuel, 295
Locomotive service, 31
Lubrication of locomotive valves, 619
Management of men, 479
March meeting of, 159
Notice of December meeting, 697
Notice of February meeting, 91
Notice of January meeting, 53
November meeting of, 651
October meeting of, 599
Piece work in car shops, G. L. Potter, 173
Pre-emption of metal underframes, 622
Progressiveness in car and locomotive design, 245
Shop training of apprentices, 661
Speed, power and efficiency of electric motors, 438

Western Ry. of Alabama, six-wheel switching locomotive, 339
Western Soc. of Engineers—
Annual meeting and banquet of, 19
August meeting of, 455
Decimal classification for engineers, 217
Drainage canal excursion, 411
Excursions of, 465, 591, 649
May meeting of, 318
Notice of annual meeting and banquet, 19
Notice of April meeting, 179
Not ce of May meeting, 231
October meeting, 575
Questions for discussion, 147
Resignation of Secretary Goldmark, 297
September meetings of, 501, 538
Shafts of hollow forged steel, 647
Steel for boilers and fire-boxes, 682
Westinghouse friction draft gear, 382
Westinghouse Machine Co., new gas engine, 539
Wheel mounting gage, 355
Wheel tires, wear of on N. Y. Central passenger engines, 146
Whitewash sprayer, new on C. & N. Ry., 507
Whiteley Malleable Casting Co., couplers of under tests, 313, 371
Whitham, J. M., retarders in fire tubes of steam boilers, 310
Whitney, C. W., increase of heating surface in locomotives, 226
Why railroad men oppose free silver, 335
Wileman, E. D., color for night signals, 458
Wilson, Herbert C., liquid fuel and methods for burning, 439
Window shades, ruling as to rates on, 169
Wire fence, the new McMullen, 626
Wire rope, effect of the bending of, 599
Woodline—
Absorption tests with, 248
Tie preserving plant, 118
Woodrow, Fred, rights of the other man, 482
Woods, S. A., Machine Co.—
Automatic knife grinder, 276
Double surfacing and sizing machine, 416
Wood working machinery—
Arrangement of, in shops, 580
Power required, 515
Wright's inside boiler check, 33

Y
Yardley, Edmond, annual cost of freight car to owner, 24
Yardley, T. W., boiler room economies, 424
Yazoo & Mississippi Valley R.R., new attachments for eccentric, 465
Youngstown Bridge Co., structure at Knoxville, Tenn., 297

ILLUSTRATIONS.

Adams vortex exhaust nozzle, 52
Air brake equipment, use of on freight trains, 48
Air brake recorder, an automatic, 242
Air brakes—
Cost of rigging, 412
Instruction plant, C. V. R. R. 245
New stop cock for, 384
Air compressors—
A belted, 493
Metropolitan elevated road, 88
Rand on A. T. & S. F. Ry., 45
The Duplex, C. & N. W. 122
The Star, 370, 171
Use of in A. T. & S. F. shops, 231
Air motors—
New for small tools, 495
Use in valve setting, 216
Air reheater, The Sargent, 272
Aldrich Car Seal & Mfg. Co., simple and effective seal, 550
American Balance Slide Valve Co., details of construction of valves, 343
American Brake Beam Co. new metallic beam, 565
American Hoist & Derrick Co., twenty ton derrick, 172
American palace car, 184
American Signal Co., improved system of 282, 283
American Steel Fdry. Co. heavy freight car track, 151
American Society Railroad Superintendents, electric train staff, 534, 535
American Wood Preserving Co. specimen of preserved track, 510
Arches, tests of corrugated steel, 276
Arches and vaults, tests of Austrian Society of Engineers and Architects, 165
Ashton Valve Co. new low pressure pop valve, 661
New pop safety valve, 439
Assn. of Engineers of Virginia, G. R. Henderson, on locomotive counter balancing, 524
Atchison, Topeka & Santa Fe Ry., air compressors in shops, 234
Air motor for valve setting, 216
Coal hoppers on standard tenders, 257
Convenient pneumatic appliances, 242, 243
New hospital for, 414
Pneumatic riveting machine, 706
Atlanta & West Point Ry. new dining car, 158
Axle, journal box bearing and wedge, 388, 389

B
Baker Bros. multiple spindle drill press, 640
Baldwin Locomotive Works, electric motor truck, 132
Four interesting locomotives, 605
Freight locomotive for Russia, 115
New fast passenger locomotive, 342
Ten wheel passenger locomotive, 101
Wide fire box locomotive, 61
Baldwin-Westinghouse electric locomotive, 133
Ball bearing for car journals, 521
Barnes, D. L. electric motors, 500, 501
Speed, power and efficiency of electric motors, 438, 439

Bass Foundry & Machine Co., large rope driving fly wheel, 188
Beams and channels, standards for steel, 198
Bedford quarries, a train load of stone from, 691
Bement, Miles & Co., horizontal boring, drilling and milling machine, 538
Bessemer process of steel making, 692, 702, 703
Bickford Drill & Tool Co., electrically driven radial drill, 157
Bicycle, combination highway and railway, 445
Baltimore & Ohio Ry., consolidation locomotives, 576, 577, 620
Steel center sills for box cars, 117
Tests of electric locomotives, 144
Boiler check, Wright's inside for locomotives, 33
Boiler feeder, new kerosene oil, 471
Boilers, magnesium sectional lagging, 338
Boring and drilling machine, a horizontal, 612
Boring and turning mill, new design for, 57
Boring drilling and milling machine, a horizontal, 538
Boring machine, a chord, 198
Double cylinder, 200
Boston & Albany Ry., steam wrecking and construction crane, 46
Track depression, 674
Boston & Maine Ry., new shops at Concord, N. H., 536
Photographers car, 571
Brake beams, new metallic American Brake Beam Co., 565
The interchangeable, 77
Williams malleable, 328
Brake cylinders, diagrams of piston travel, 230
Brake shoes—
New by Sargent Co., 234
New composite, 688
The Kinzer, 355
Bridges, a dangerous, 59
Design for timber trestles, 157, 158
Emergency construction on Big Four, 385
Failure of false work, 147
New Albert—Australia, 468, 469
New at Knoxville, 297
New over the Seine, 398
New M. & St. L. at New Ulm, 451
Over Mississippi at New Orleans, 548
Pony t. uss—C. M. & St. P. 508, 509

Brooks Locomotive Works—
Eight wheel passenger locomotive, I. C. 677
Mogul freight locomotive, 395
New locomotive for Japan, 689
Ten-wheel freight locomotive, C. R. I. & P. 537
Ten-wheel passenger—B. C. R. & N. 707
Ten-wheel passenger locomotive, Erie, 523
Brown & Sharp Mfg. Co., belting power transmission, 273
Bryan's car coupler attachment, 326
Buckeye Engine Co., two new trucks for freight cars and tenders, 592, 593
Bumping post, a novel, 143
Burlington, Cedar Rapids & Northern Ten-

wheel passenger locomotive, 707
Bush Cattle Guard Co., common sense guard No. 2, 164
C
Cambria Iron Co., Gentry crane, 718, 719
Cambridge City Punch Shear & Roll Co., steam or compressed air shear, 501
Car bolster, body for 70,000 lbs. car, 255
Car brace cut off saw, 151
Carburetors, use of for paint burning, 437
Car door bracket, The Moore, 104
Car door fastening, The Kennedy, 3
Car doors—
The Hoyt flush, 329
The Waitt, 662, 690
Car ferry, aprons of at Port Costa and Benicia, 62
Car heater, the economy freight, 18
Car heating, location of train pipes for steam, 598, 599
Car journals, ball bearing for, 521
Car lighting, system of electric, 613
Car roof, a metallic, 367
Cars—
Air brake instruction, 105
American palace, 184
Axle, journal box bearing and wedge, 388, 389
Brooklyn bridge motor, 87
Combination ore and stock, 7
Combination ore and gondola, 145
Combination parlor and sleeper, 76
Diner on A. & W. P. Ry., 158
Doddridge ditcher 312, 313
Drop bottom coal, L. S. & M. S. 128, 129
Flat 70,000 lbs. N. P. 566, 567
Gasoline inspection, 423
Gasoline motor inspection, 130
Hospital plant system, 525
Latest in Pennock steel, 395
New postal-C. M. & St. P. 636
Pennock steel hopper ore, 325
Photographers-B. & M. 571
Special for transporting cables, 60
Standard coal-M. K. & T. 159
Standard 34 ft. box-C. B. & Q. Ry. 49
Test of flat with load of structural steel, 570
Two strong steel, 298
Wide vestibules for passenger, 179
Car seal, The Aldrich, 556
Car sills, steel center for box cars, 117
Car tender, a heavy, 402
Car truck—
Barber freight, 217
Built up pressed steel frame, 90
Diamond on combination coal and stock car, 7
Electric motor-Lake Street Elevated, 90, 91, 132
Hardie's metallic, 637
Heavy freight, 151
Metallic freight, 562
Schoen pressed steel frame, 131, 201
Two new for freight cars and tenders, 592, 593
Car underframes, corrosion of, 622

D
Dana Iron Co., Gentry crane, 718, 719
Dana Iron Co., steam or compressed air shear, 501
Dana Iron Co., body for 70,000 lbs. car, 255
Dana Iron Co., brace cut off saw, 151
Dana Iron Co., carburetors, use of for paint burning, 437
Dana Iron Co., car door bracket, The Moore, 104
Dana Iron Co., car door fastening, The Kennedy, 3
Dana Iron Co., car doors—
The Hoyt flush, 329
The Waitt, 662, 690
Dana Iron Co., car ferry, aprons of at Port Costa and Benicia, 62
Dana Iron Co., car heater, the economy freight, 18
Dana Iron Co., car heating, location of train pipes for steam, 598, 599
Dana Iron Co., car journals, ball bearing for, 521
Dana Iron Co., car lighting, system of electric, 613
Dana Iron Co., car roof, a metallic, 367
Dana Iron Co., cars—
Air brake instruction, 105
American palace, 184
Axle, journal box bearing and wedge, 388, 389
Brooklyn bridge motor, 87
Combination ore and stock, 7
Combination ore and gondola, 145
Combination parlor and sleeper, 76
Diner on A. & W. P. Ry., 158
Doddridge ditcher 312, 313
Drop bottom coal, L. S. & M. S. 128, 129
Flat 70,000 lbs. N. P. 566, 567
Gasoline inspection, 423
Gasoline motor inspection, 130
Hospital plant system, 525
Latest in Pennock steel, 395
New postal-C. M. & St. P. 636
Pennock steel hopper ore, 325
Photographers-B. & M. 571
Special for transporting cables, 60
Standard coal-M. K. & T. 159
Standard 34 ft. box-C. B. & Q. Ry. 49
Test of flat with load of structural steel, 570
Two strong steel, 298
Wide vestibules for passenger, 179
Car seal, The Aldrich, 556
Car sills, steel center for box cars, 117
Car tender, a heavy, 402
Car truck—
Barber freight, 217
Built up pressed steel frame, 90
Diamond on combination coal and stock car, 7
Electric motor-Lake Street Elevated, 90, 91, 132
Hardie's metallic, 637
Heavy freight, 151
Metallic freight, 562
Schoen pressed steel frame, 131, 201
Two new for freight cars and tenders, 592, 593
Car underframes, corrosion of, 622

Car unloader, a rapid 315
Case J. J. Threshing Machine Co., Raymond gas engine, 551
Cattle guard, Bush common sense, 164
Central R. R. of New Jersey, new fast passenger locomotives, 342
Central Stamping Co., friction of transmission, 557
Central Vermont Ry., air brake instruction plant, 245
Charter Gas Engine Co., combined gasoline engine and pump, 599
Chicago & Northwestern Ry.—
Air motor for small tools, 495
Attachment to cylinder castings, 143
Automatic pneumatic flue welder, 480
Cast iron smoke stack, 103
Cylinder and steam chest insulation, 479
Double track on, 606, 607
Draft rigging, 327
Sand tower of, 466
Shop traveling crane, 584, 585
Water tank at Elmhurst, 185, 186
Chicago, Burlington & Quincy—
Experimental drain cup, 409
Standard 34 ft. car, 49
Chicago drainage canal, Lidgerwood self filling scraper, 63
Chicago Great Western Ry., Stickney track indicator, 74
Chicago, Milwaukee & St. Paul—
Arrangement of wood working machinery in shop, 581
Barber freight car truck, 217
Fuel record, 6, 44, 45
New fast passenger compound locomotive, 396
New postal car, 616
Pony truss span bridge, 508, 509
Rod mill for scrap material, 34, 35
Rod mill furnace, 100
Signal connections under street crossings, 458
Standard rail top cutverts, 678
Chicago, Rock Island & Pacific Railway—
Eight wheel passenger locomotive, 623
Failure of false work of bridge, 147
Locomotive step, 411
New fast passenger locomotive, 300, 391
Pneumatic grate shaking device, 633
Ten-wheel freight locomotives, 537
Chisel and mortising machine—
A vertical hollow, 586
Cleveland, Cincinnati Chicago & St. Louis Ry.—
Emergency bridge construction, 385
Model locomotive "Sandusky", 454
Relies on, 455
Cleveland Twist Drill Co.—
New twist drill with oil tube, 430
Coal hoppers—
On A. T. & S. F. standard tenders, 255
Coal storage—
Dodge system, Erie Railway, 310
Coal storage plant—
Lehigh Valley Coal Co., 561, 565

THE RAILWAY REVIEW. Table of Contents.

Combination parlor and sleeping car, 76
Compensator—
A new, for signal wires, 514
Compensator base—
An improved, 254
Composite Brake Shoe Co.—
New composite shoe, 688
Compressed air—
Use of for locomotives, N. O. & W. 244
Converters—
First two forms, 62, 692
Kelley's, 692
Cook Standard Mfg. Co.—
National gas engine, 186
Corrosion of metallic underframes, 622
Couplers—
Bryan's attachment, 326
Gifford M. C. B. 38
Hien automatic, 297
New locking pin for the Janney, 318
Uncoupling arrangements for the M. C. B. automatic, 346
Cranes—
Doddridge ditching, 312, 313
Friction clutch for, 452
Novel power traveling, 104
Pneumatic traveling, 542
Shop traveling, 584, 585
Steam wrecking and construction, B. & A. 46
The Gantry, 718, 719
Thirty ton capacity, M. C. R. R. 319
Twenty ton derrick, 172
Twenty ton electric traveling 340
Crank axle, a locomotive, 590
Crossheads, light cast steel, 691, 721
Culverts, standard rail top, C. M. & St. P., 678
Cummer F. D. & Son Co., Portable sand drier, 329
Curtis Co. Mfg. Co., Belted air compressor, 493
Cylinder bushings, M. M. Asso., 361

D
Daniels iron framedimension planer, 236
Dayton Malleable Iron Co., Hoey draw-bar attachment, 16
Dean's pneumatic track sander, 441
Delaware, Lackawanna & Western, Culm burning locomotive, 481
Denver, Rio Grande Ry.—
Developments of track, 511
Draft rigging, 173
Dickson Mfg. Co., Culm burning locomotive, 481
Doddridge pneumatic turntable apparatus, 436
Dodge Coal Storage Co., plant for Lehigh Valley Coal Co., 564, 565
Double tracking, C. & N. W. Ry., 606, 607
Douglas, W. & B. Co., convenient electric pump, 549
Draft gear, Westinghouse friction, 382
Draft rigging—
Chicago & Northwestern box cars, 327
Denver & Rio Grande Ry., 173
For locomotive tenders, P. R. R., 5
Drain cup, an experimental, C. B. & Q. 409
Draw-bars, the Hoey attachment, 16
Drill press, multiple spindle, 640
Drills—
Electrically driven radial, 157
Multiple for girder work, 262
New twist with oil tubes, 430
Swinging for girder work, 174
Dummy coupling, an air tight, 32
Duluth, Mesabe & Northern Ry., new ore dock, 269
Duluth, South Shore & Atlantic, combination ore and gondola car, 145
Dump cars—
New Page, 472
Page improved, 676
The Danahy, 156
Dumping machine, the Long car, 368, 369
Dynamometer, Riehle-Robinson, 164
Eccentric strap, use of babbit metal on, 241
Egan Co.—
Heavy car tender, 492
Electric Car Lighting Co.—
System of, 613
Electric locking, ancient and modern, 268, 269
Electric motors—
Speed, power and efficiency of, for locomotives, 438, 439
Why they revolve, 590, 591
Electric pump—
A convenient, 549
The triplex, 571
Electric traction, Brooklyn bridge motor car, 87
Elliott Frog & Switch Co., new Eureka spring rail frog, 424
Endless freight conveyor, 366
Engine and pump, combined gasoline, 599
English switch and lock movement, 632
Erie Railway—
Dodge system coal storage, 310
Long car dumping machine, 368, 369
Ten-wheel locomotive, 523
Transporting a large stern frame, 58
Excelsior Iron Works, long car dumping machine, 369
Exhaust jet, investigations of different forms, 314
Exhaust nozzle, the Adams vortex, 52
Exhaust pipes and steam passages, recommended M. M. practice, 360

F
Fairbanks, Morse & Co., two simple gasoline engines, 683
Far, J. A. & Egan Co.—
Car brace cut off saw, 151
Double cylinder flooring machine, 655
Extra heavy molding machine, 626
Heavy "lightning" flooring machine, 333
Surfacing and jointing machine, 444
Vertical hollow chisel and mortising machine, 586
Fire-boxes, the Ten Brinck, 618
Flooring machine—
Heavy "lightning", 333
New double cylinder, 655
Flue welder, an automatic pneumatic, 480
Fly wheels, large rope driving, 188
Foreign railways—
Curious locomotive explosion in Peru, 394
Longitudinal sleepers in Austria, 698
Oriental railways, by C. F. Street, 72, 73
Foundry equipment—
Cupolas and ladles, 621
Molding machines and blowers, 648, 649
Power hammers, 679, 693, 704
Power hammers and hammer cranes, 664, 665
Wheel casting and light cranes, 634, 635
Foundry testing machine, 353
Frogs and switches—
New Eureka spring rail frog, 424
Simple derailing switch, 450
Fuel records, C. M. & St. P. Ry., 6, 44, 45

G
Gage glasses, Watson's balanced, 697
Gas engine—
Raymond improved, 551
The National, 186
The Westinghouse, 539
Gasoline engines—
For water works plant, 696
Two new simple, 683
Gifford M. C. B. coupler, 38
Grate shaking device, pneumatic, for C. R. I. & P., 633
Great Eastern Railway, Holden's oil burning locomotive, 231
Great Northern Railway—
Economy freight car heater, 18

Hydraulic attachment for raising snow plows, 551
Hydraulic excavation, 399
Mogul freight locomotives, 595
H
Haley-Haberkorn valve motion, 171
Hancock Inspirator Co., patent hose strainer for injector, 426
Hansel, Charles, electric train staff system, 534
Hardie's metallic car truck, 637
Hasell Perfected Ry. Signal Co., protection for drawbridges, 410
Haskell & Barker, metallic freight car truck, 562
Hauling and tractive power, diagram of, for locomotives, 593
Hauss Iron Mail Crane Co., new crane and catcher, 427
Henderson, G. R., locomotive counterbalancing, 524
Henion & Hubbell—
Gasoline engine for water works plant, 696
Triplex electric pump, 571
Herr, E. M., diagram of tractive and hauling power, 609
Hien double automatic coupler, 297
Hose coupling and valve, a combined, 19
Hose strainer, Hancock patent for injectors, 426
Hydraulic excavation, Gt. N. Ry., 399

I
Illinois Central Ry.—
Carburetors for paint burning, 437
Eight wheel passenger locomotive, 677
Lake front improvements, 356, 357, 496, 497
Indicator diagrams—
Experiments at Purdue University, 705, 720
Long pipe connections for, 499
Industrial works—
Steam wrecking and construction crane, 46
Thirty ton railroad crane, 319
Ingersoll-Sergeant Drill Co.—
Air reheater, 272
Pohle air lift pump, 119
Interchangeable Brake Beam Co., new metal brake beam, 77
Interesting relic, an ancient time table, 594
Iron, use of cast for steam pipes, 661

J
Jacks, new hydraulic, 248
Jones & Laughlin Co., standard beams and channels, 198
K
Kalamazoo R. R. Velocipede & Car Co.—
Gasoline motor inspection car, 630
High grade railroad velocipede, 114
New gasoline inspection car, 433
Kennedy car door fastening, 3
Kinzer & Jones Co., new brake shoe, 355
Knife grinder, an automatic, 276

L
Lake front improvements, I. C. R. R., 356, 357, 496, 497
Lake Shore & Eastern, new Page dump car, 472
Lake Shore & Michigan Southern Ry.—
Drop bottom coal cars, 128, 129
Peculiar washout, 507
Waitts car door, 662, 690
Wide vestibules for passenger car, 170
Lake Street Elevated—
Electric motor truck, 90, 91, 132
Third rail supports, 259
Lake Superior & Ishpeming, heavy compound locomotive, 494
Leach, Henry L., improved locomotive sander, 341
Lehigh Valley Coal Co., coal storage plant, 564
Lehigh Valley Ry., wide fire box locomotive, 61
Lidgerwood Mfg. Co.—
Rapid loader, 315
Self-filling scraper, 63
Temperly transporter, 383
Link Belt Machinery Co., endless freight conveyor, 366
Linstrom's locomotive eccentric, 465
Locomotive boilers, effect of high rates of combustion on, 522, 523
Locomotive boilers, water tube, 580
Locomotive counterbalancing, G. R. Henderson on, 524
Locomotive cylinder castings, attachment of steam and exhaust pipes to, 143
Locomotive eccentric, new attachment for, 465
Locomotive explosion, curious in Peru, 394
Locomotive injector, the Ohio, 24
Locomotive sander, improved pneumatic, 341
Locomotive stacks—
Cast iron on C. & N. W. Ry., 103
Recommended M. M. practice, 360
Locomotive step, form and location, C. R. I. & P. Ry., 411
Locomotive tanks, suction pipes for, 595
Locomotives—
Air on New Orleans & Western, 244
An inspection, St. L. & A. Ry., 189
Baldwin-Westinghouse electric, 133
Compound switching, 229
Consolidation, B. & O. Ry., 576, 577
Culm burning, D. L. & W. 481
Cylinder and steam chest insulation, 479
Eight-wheel passenger, C. R. I. & P. 633
Eight-wheel passenger, I. C. Ry., 677
Express passenger, N. E. Ry. of England, 716
Fast ten-wheel, M. C. R. R. 311
Four interesting Baldwin, 605
Freight for Russia, 115
Heavy compound, L. S. & I. Ry., 494
Heavy consolidation, B. & O. 620
Holden's oil burning, 231
Increase of heating surface, 226
Madison hill, P. C. C. & St. L. 663
Magnesia sectional lagging, 338
M. M. committee report on reciprocating parts, 374
Model C. C. & St. L. "Sandusky" 454
Mogul freight, Gt. N. Ry., 595
Mogul freight, M. C. R. R., 453
Mogul freight, N. Y., N. H. & H. 550
New fast passenger, 342
New fast passenger, C. M. & St. P. 397
New fast passenger, C. R. I. & P. Ry., 300, 391
New for Japan, 689
New passenger, N. Y., N. H. & H. 413
Performance of a oil fuel, 38
Raising center of gravity of, 170
Rogers ten wheel, L. & N. R. R. 4, 5
Six-wheel switching, 339
Ten Brinck fire-box for, 618
Ten-wheel freight, C. R. I. & P. 537
Ten-wheel passenger—B. C. R. & N. Ry., 707
Ten-wheel passenger, Erie, 523
Ten-wheel passenger for Russia, 101
Tests of B. & O. electric, 144
Wide fire-box, L. V. R. R. 61
Lodge-Davis Machine Tool Co., self-emptying oil separator, 31
Los Angeles Terminal Ry., performance sheet of oil fuel locomotive, 38
Louisville & Nashville, ten wheel locomotive, 4, 5
Lumber, standard methods of loading on cars, 150

M
Madison Car Co.—
Combination coal and stock cars, 7
Heavy freight car truck, 151
Standard coal car on M. K. & T. Ry., 159
Williams malleable brake beam, 328
Madras harbor, caissons for north pier head, 440, 441
Mail crane and catcher, the Hauss, 427
Maine Central, mogul freight locomotive, 453
Master Car Builders' Association—
Committee reports on axle, journal box bearing and wedge, 383, 389
Corrosion of rails and air brake pipes, 367
New wheel mounting gage, 355
Proposed repair card, 31
Rules for loading structural material, 492, 493
Uncoupling arrangements of couplers, 346
Master Mechanics' Association—
Circular for engine truck wheel flanges, 230
Cylinder bushings, 361
Exhaust pipes and steam passages, 361
Form of smoke stack, 361
Report of committee on reciprocating parts, 374
McConway & Torley Co., new locking pin for Janney coupler, 318
McGuire Mfg. Co., electric motor truck—Lake Street Elevated, 90, 91
McMullen Woven Wire Fence Co., the new fence, 626
Mertzheimer's babitted eccentric strap, 241
Metal sawing machine, Q. & C. Co., 710
Metropolitan Elevated, air compressors on, 88
Michigan Central Railway—
Air brake inspection car, 105
Fast ten wheel locomotive, 311
Thirty ton capacity crane, 319
Michigan Lubricator Co., new kerosene oil boiler feeder, 474
Molding machine—
Double head girder, 235
Standard double head, 213
Minneapolis & St. Louis, new bridge at New Ulm, 451
Missouri, Kansas & Texas Ry.—
Pressed steel truck, 201
Standard coal car, 159
Modern iron working appliances—
Cupolas and ladles, 621
Molding machines and blowers, 648, 649
Power hammers, 679, 693, 704
Power hammers and hammer cranes, 664, 665
Wheel casting and light cranes, 634, 635
Molding machines, extra heavy, 626
Moore Car Door Co., a new bracket, 104
Mountain railways, profile of principal, 212

N
National Switch & Signal Co.—
Improvements in interlocking machines, 271
Interlocked crossovers, Union Loop, 668
Interlocking plants on Union Loop Elevated, 467
Simple derailing switch, 450
New Orleans & Western Ry., air locomotives, 244
New York Central—
Railway shops at Depew, 332, 333
Syracuse station, 228
Wear of tires on passenger engines, 146
New York, New Haven & Hartford Ry.—
Mogul freight locomotive, 590
New passenger locomotive, 413
New railway station in Providence, 482, 483
Track elevation in Boston, 187, 199
New York Railroad Club, Cost of Air Brake rigging, 412
Niagara power house, an addition to, 579
Night signals, scheme for lights, 647
Niles Tool Works—
Chord Boring Machine, 193
Double head girder, 235
Horizontal boring and drilling machine, 612
Multiple drill for girder work, 262
New Design for boring and turning mill, 579
Swinging drill for girder work, 174
Turret lathe and screw machine, 287
Northeastern Ry., locomotive crank axles, 590
Northern Pacific Ry.—
Body bolster for 70,000 lb. car, 255
Flat car, 70,000 lbs., 566, 567

O
Ohio locomotive injector, 24
Oil purifier, Q. & C. Co., perfection, 136
Oil separator, a self emptying, 31
Ore dock, new at Duluth, 269
P
Pancoast ventilator, 47
Pennsylvania Rd.—
Draft rigging for locomotive tenders, 6
Radebaugh tunnel, 21
Standards of signal department, 240
Twenty ton derrick, 172
Wood preserving plant, 119
Perkins Water Tube Boiler Co., a new locomotive boiler, 530
Permanent Rail Joint Co., a new joint 706
Petroleum light, a powerful, 549
Philadelphia & Reading Ry., tunnel of, at Philadelphia, 284, 285
Phoenix Iron Works—
Friction clutch for crane, 452
Novel power traveling crane, 104
Sixty foot turntable, 381
Twenty ton electric traveling crane, 340
Piston valves, application on locomotive, 637
Pittsburgh, Cincinnati, Chicago & St. Louis—
Madison hill locomotive, 663
Pittsburgh Locomotive Works—
Heavy compound locomotive, L. S. & I., 494
Heavy consolidation locomotive, B. & O., 620
Planer, iron frame dimension, 235
Plant System, hospital car, 525
Pneumatic appliances, some convenient in A. T. & S. F. shops, 242, 243
Pneumatic hammer, use of for calking tool, 102
Pohle air lift pump, 119
Portraits—
Czar of Russia, 553
David Leonard Barnes, 712
George B. Reeves, 40
Prince Michael Hilko, 552
Power transmission—
Application of belting for, 273
Friction of, 557
Pumps, double acting triplex, 725
Purdue University—
Tests for indicator diagrams, 705, 720
Tests of high rates of combustion on locomotive boilers, 522, 523

Q
Q & C Co.—
Hoyt flush car door, 329
New power metal sawing machine, 710
Perfection oil purifier, 136
R
Rack railways, improvements in, 604
Rail bending machine, new design for, 459
Rail deflection, example of, 485
Rail joints, a permanent, 706
Rails and air brake pipes, corrosion of, 367
Railway crossings, complicated in Chicago, 17
Railway hospital, A. T. & S. F. at Topeka, 464
Railway scrap, and mill for C. M. & St. P. Ry., 94, 35
Railway shops—
Arrangement of tool rooms, 396
B. & M. at Concord, N. H., 536
New York Central at Depew, 332, 333
Railway Signaling Club—
English switch and lock movement, 632
Improvement in switch and lock movement, 659
Railway stations—
R. Louisville terminal, 161
N. Y. C. & H. R. at Syracuse, 223

S
Sand drier, Currier portable, 329
Sand tower, C. & N. W. Ry., 466
Sargent & Co., new brake shoe, 234
Schenectady Locomotive Works—
Compound switching locomotive, 229
Fast ten wheel locomotive, 311
Inspection locomotive, St. L. & A. Ry., 189
Mogul freight locomotive, 453
Mogul freight locomotive, N. Y., N. H. & H., 550
New passenger locomotive, N. Y., N. H. & H., 413
Schoen Mfg. Co., pressed steel truck frame, 131
Schoen Pressed Steel Co., truck on M. K. & T. Ry., 201
Self cooling jet condenser, 286
Self filling scraper, 63
Shear, steam or compressed air, 501
Sheffield Car Co., new Page dump car, 472
Shop appliances—
Belted air compressor, 493
Double surfacing and sizing machine, 417
Extra heavy molding machine, 626
Horizontal boring and drilling machine, 612
Multiple spindle drill press, 640
New power shear, 108
Pneumatic calking hammer, 102
Pneumatic traveling crane, 542
Vertical hollow chisel and mortising machine, 586
Signaling and interlocking—
Connections under street crossings, 458
Electric locking, ancient and modern, 268, 269
Electric pneumatic plant, St. Louis, 214, 215
Electric train staff, 534, 535
Elliott's electrically locked switch stand, 227
English switch and lock movement, 632
Improved compensator base, 254
Improved National interlocking machine, 271
Improved system, 222, 283
Improvement in switch and movement, 650
Insulation for pipe connection, 675
Interlocked crossovers, Union Loop, 668
New compensator for signal wires, 514
Protection for draw-bridges, 410
Rocker shaft lead out, 77
Scheme for night lights, 647
Standards of Pennsylvania Lines, 240
Union loop Chicago, 467
Skylights, translucent fabric for, 528
Snow plows, hydraulic attachment for raising, 651
Southeastern Ry. of Russia, 10-wheel Baldwin locomotive, 101
Southern Ry., light cast steel crossheads, 691
St. Charles Car Co.—
Danahy dump car, 156
New diner on A. & P. Ry., 158
St. Lawrence & Adirondack, inspection locomotive, 189
St. Louis Steam Engine Co., star air compressors, 370, 371
St. Paul & Duluth Ry., automatic air brake recorder, 242
Steamboats, City of Buffalo, 75
Steam condenser, a self-cooling, 286
Steam pipes—
Cast iron for, 661
Some malleable iron, 403
Steam pipe coverings, 160
Steam shovels, Bucyrus on C. & N. W. 607
Steam trap, the Geigel, 725
Steel—
Bessemer process of manufacture, 692, 702, 703
Flaws shown by microscope, 130
Heavy load of structural, 570
Use of pressed for truck frame, 90
Stern frame, transporting a large, 58
Stickney track indicator, 74
Stop cocks for air brakes, 384
Storey Motor & Tool Co., air compressor on Metropolitan elevated, 88
Structural material, M. C. B. rules for loading, 492, 493
Suction pipes for locomotive tanks, 595
Surfacing and jointing machine, a large dimension, 444
Surfacing and sizing machine, a double, 417
Switch stands—
Automatic ground throw, 20
Elliott's electrically locked, 226

T
Temperly transporter, 383
Testing machine, the Riehle abrasion, 34
Texas & Pacific Ry., endless freight conveyor, 366
Timber, use of for trestles, 157, 158
Timber preservation—
Plant at Pavonia, Penn. R. R. 118
Specimen of ties in track, 510
Third rail support, Lake Street elevated, 259
Thomas Carlin's Sons, new power shear, 108
Track depression, Boston & Albany, 674
Track elevation, N. Y., N. H. & H. at Boston, 187, 199
Track indicator, the Stickney, 74
Track sander, Dean's pneumatic, 441
Tractive and hauling power, diagram of, 609
Train resistance, diagram of, 241
Translucent Fabric Co., material for skylights, 528
Tunnels—
Philadelphia & Reading subway, 284, 285
Radebaugh on P. St. R. 21
Triangulation preparatory to alignment, 201
Time table, an ancient, 594
Turntables—
Doddridge's pneumatic patent, 436
Sixty foot, 381
Turret lathe and screw machine, 287

U
Union Loop Elevated—
Interlocked crossovers, 668
Signaling and interlocking for, 467
Stations of, 425
Union Pacific Ry., malleable iron steam pipes, 463
Union Switch & Signal Co.—

N. Y., N. H. & H. at Providence, 482, 483
Plan for new Boston, 175
Union elevated loop, 425
Railway ties, longitudinal sleepers in Austria, 698
Railway track, development on D. & R. G. 511
Railway velocipede, Kalamazoo high grade, 114
Rand Drill Co.—
Air compressors in A. T. & S. F. shops, 45, 234
Dupl x air compressor, 122
Relies on the Big Four, 455
Richmond Locomotive Works, consolidation locomotives, 576, 577
Riehle abrasion testing machine, 34
Riehle Bros. Testing Machine Co., foundry testing machine, 353
Riehle double head milling machine, 213
Riehle-Robinson 25 h. p. transmission dynamometer, 164
Riveting machine—
Pneumatic, A. T. & S. F. Ry. 706
Semi-portable, 724
Rod mill furnace—C. M. & St. P. Ry., 100
Rogers Locomotive Works—
Six wheel switching locomotive, 339
Ten wheel locomotive—L. & N. R. R. 4, 5
Rushlon's improved throttle valve, 354

Sand drier, Currier portable, 329
Sand tower, C. & N. W. Ry., 466
Sargent & Co., new brake shoe, 234
Schenectady Locomotive Works—
Compound switching locomotive, 229
Fast ten wheel locomotive, 311
Inspection locomotive, St. L. & A. Ry., 189
Mogul freight locomotive, 453
Mogul freight locomotive, N. Y., N. H. & H., 550
New passenger locomotive, N. Y., N. H. & H., 413
Schoen Mfg. Co., pressed steel truck frame, 131
Schoen Pressed Steel Co., truck on M. K. & T. Ry., 201
Self cooling jet condenser, 286
Self filling scraper, 63
Shear, steam or compressed air, 501
Sheffield Car Co., new Page dump car, 472
Shop appliances—
Belted air compressor, 493
Double surfacing and sizing machine, 417
Extra heavy molding machine, 626
Horizontal boring and drilling machine, 612
Multiple spindle drill press, 640
New power shear, 108
Pneumatic calking hammer, 102
Pneumatic traveling crane, 542
Vertical hollow chisel and mortising machine, 586
Signaling and interlocking—
Connections under street crossings, 458
Electric locking, ancient and modern, 268, 269
Electric pneumatic plant, St. Louis, 214, 215
Electric train staff, 534, 535
Elliott's electrically locked switch stand, 227
English switch and lock movement, 632
Improved compensator base, 254
Improved National interlocking machine, 271
Improved system, 222, 283
Improvement in switch and movement, 650
Insulation for pipe connection, 675
Interlocked crossovers, Union Loop, 668
New compensator for signal wires, 514
Protection for draw-bridges, 410
Rocker shaft lead out, 77
Scheme for night lights, 647
Standards of Pennsylvania Lines, 240
Union loop Chicago, 467
Skylights, translucent fabric for, 528
Snow plows, hydraulic attachment for raising, 651

Southeastern Ry. of Russia, 10-wheel Baldwin locomotive, 101
Southern Ry., light cast steel crossheads, 691
St. Charles Car Co.—
Danahy dump car, 156
New diner on A. & P. Ry., 158
St. Lawrence & Adirondack, inspection locomotive, 189
St. Louis Steam Engine Co., star air compressors, 370, 371
St. Paul & Duluth Ry., automatic air brake recorder, 242
Steamboats, City of Buffalo, 75
Steam condenser, a self-cooling, 286
Steam pipes—
Cast iron for, 661
Some malleable iron, 403
Steam pipe coverings, 160
Steam shovels, Bucyrus on C. & N. W. 607
Steam trap, the Geigel, 725
Steel—
Bessemer process of manufacture, 692, 702, 703
Flaws shown by microscope, 130
Heavy load of structural, 570
Use of pressed for truck frame, 90
Stern frame, transporting a large, 58
Stickney track indicator, 74
Stop cocks for air brakes, 384
Storey Motor & Tool Co., air compressor on Metropolitan elevated, 88
Structural material, M. C. B. rules for loading, 492, 493
Suction pipes for locomotive tanks, 595
Surfacing and jointing machine, a large dimension, 444
Surfacing and sizing machine, a double, 417
Switch stands—
Automatic ground throw, 20
Elliott's electrically locked, 226

T
Temperly transporter, 383
Testing machine, the Riehle abrasion, 34
